

# MATERIALS MATTER

## OUTDOOR LEARNING WORKSHOP

**EYFS, KS1 AND LKS2 - TWO HOUR WORKSHOP**

### **EYFS & KS1**

Look at materials all around us and go on a materials hunt outdoors. Discuss why they are suitable for that use. Create homes for the characters of a story such as The Three Little Pigs, or a topic from class. This activity is all about teamwork; communicating with one another on what man-made and natural materials will work best.

How can they stay dry, keep out predators and remain warm? Which will survive the storm test? Will the wolf be able to blow your house down? Use the wolf 'fan' to find out!

### **KS1 & LKS2**

Using data loggers, keep track of the temperature of a cup of hot chocolate or a bowl of porridge. Make decisions on what materials will be the best insulator for the house, build the homes together and then record the temperature. What materials will be the best insulators to keep the hot chocolate or porridge warm?

### **PRICING**

Half day (1 x 2 hour session) = £225

Full day (2 x 2 hour session) = £350
